

More **coverage**. More **confidence**.

An enhanced Natrelle[®] ConfidencePlus[™] Warranty Program

The Allergan Breast Implant Warranty Program offers **more** coverage for breast implants—designed for added peace of mind and patient satisfaction

Applicable as of January 1, 2018.

Our enhanced warranty options feature:

- Complimentary breast implant replacement in the event of capsular contracture (Baker Grade III/IV) or BIA-ALCL diagnosis
- Complimentary rare events coverage up to 4,000 EUR in the case of a BIA-ALCL diagnosis

THE NATRELLE[®] CONFIDENCEPLUS[™] WARRANTY PROGRAM:

	Rupture	Capsular contracture	Rare events [†]
Complimentary product replacement	Lifetime	10 years	Lifetime
Financial assistance*	Up to 1,000 EUR within 10 years		Up to 4,000 EUR in the event of a BIA-ALCL diagnosis

* Subject to review and approval by Allergan following submission of all required documentation.

† Rare events coverage applies to all Allergan breast implants, including Natrelle[®], BRST[®] and CUI[®]. BIA-ALCL, breast implant-associated anaplastic large cell lymphoma.

Additional information about rare event coverage for both gel and saline products

Patients with breast implants have a very small, but increased risk of developing **Breast Implant-Associated Anaplastic Large Cell Lymphoma (BIA-ALCL)**. In the unlikely event of a BIA-ALCL diagnosis, patients with Allergan implants are eligible for up to 4,000 EUR of out-of-pocket surgical cost assistance toward the removal of the breast implant(s) and the associated scar tissue (complete capsulectomy). Allergan will also provide replacement implant(s) at no charge. For coverage eligibility, surgeons are directed to contact Allergan and provide appropriate documentation.

As always, patient safety is Allergan's first priority.

We are working closely with leading surgeons worldwide to increase awareness of BIA-ALCL and the importance of early diagnosis. We will continue to work with the medical community to further the understanding of this rare disease.
